### Profile

---

BTech Computer Science graduate with hands-on experience in Python and Django. Skilled in developing full-stack web applications using REST APIs, database management, and user-focused interfaces. Actively seeking opportunities to apply strong problem-solving and development skills in a professional environment.

### Education

---

#### BTech Computer Science and Engineering (2021–2025)

College of Engineering Aranmula, Pathanamthitta

CGPA: 8.8

#### Higher Secondary (2019–2021)

GHSS Thazhathuvadakara, Kottayam

Percentage: 98%

#### SSLC (2018–2019)

St. John the Baptist CBSE School, Kottayam

Percentage: 94%

### Experience

---

#### Python Django Full Stack Intern

June 2025 – January 2026

Luminar Technolab, Kochi

- Developed full-stack web applications using Python and Django following MVC architecture.
- Implemented RESTful APIs to perform CRUD operations with validation and error handling.
- Designed and maintained MySQL databases with efficient schema and optimized queries.
- Integrated user authentication and responsive frontend using HTML, CSS, and JavaScript.

### Projects

---

#### Student Attendance Tracker (STRACK)

Developed a Django-based system to manage students, subjects, attendance, and internal marks. Implemented teacher dashboards for attendance tracking and report generation, and a student portal for viewing attendance, marks, PDF downloads, and chatbot-based interaction.

#### Online Book Ordering System (Bookflix)

Developed a Django web application for browsing and ordering books with full CRUD functionality, user authentication, admin inventory management, and integrated RuPay payment support.

### Skills

---

**Technical Skills:** Python, Django, JavaScript, HTML, CSS, MySQL, Git, GitHub

**Tools:** PyCharm, VS Code
